AMENDMENT

Box Non-Fee Amendment
Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

In response to the Office Action of July 18, 2001, amendment to the above-identified patent application is requested. Substitute paragraphs and claims are presented below, and marked-up amendments are on attached sheets at the end of this Amendment.

In the Specification

Please substitute the following amended paragraph(s) and/or section(s)

At page 10, lines 14-23, please substitute the following paragraph:

The use of exclusively gas phase reactants is somewhat limiting with respect to the types of precursor compounds that can be used conveniently. Thus, techniques have been developed to introduce aerosols containing reactant precursors into laser pyrolysis chambers. Improved aerosol delivery apparatuses for reaction systems are described further in commonly assigned and copending U.S. Patent Application Serial Number 09/188,670, now U.S. Patent 6,193,936 to Gardner et al., entitled "Reactant Delivery Apparatuses," incorporated herein by reference.
